General McDonald revealed to the Avalanche late on Monday evening that he was going ahead with an appeal of the verdict of the Governor.

Last Thursday morning in the executive office at Lansing, Governor George Romney handed down his decision, which has been long awaited, in the National Guard case concerning Michigan's Adjutant General and Quartermaster General, Major General Ronald D. McDonald and Brig. General Carson R. Niefert respectively.

Although finding both guilty of gross neglect of duty, the Governor reinstated General Niefert but fired General McDonald. Niefert was given a seven months suspension, but the Governor added that the suspension would be retroactive to last November and Niefert would be reinstated on June 8th.

McDonald and his attorney, Thomas McAllister, declined specific comment, but said they would have a statement later.

ROMNEY gave McDonald 10 days to choose between losing his federal status as a major general, or retaining that status as a colonel and being reassigned as a Michigan National Guard officer.

Romney read a half-hour statement reviewing testimony from his 93-hour hearing for the two. The governor emphasized "No one stands here charged with criminal action."

He added: "I find nothing that would indicate either profited personally from these activities."

Romney said, however, the conclusion was inescapable that McDonald and Niefert were guilty of gross neglect of duty and misfeasance. He added malfeasance for McDonald.

The charges, stemming from an auditor general's investigation involved land transactions at Camp Grayling and use of local army funds to buy items for the camp and Lansing headquarters.

In the case of the land transactions, Romney said McDonald acted in spite of an attorney's general opinion that the deals were illegal.

The governor said McDonald failed to bring the opinion to the attention of the State Military Board, which approved the deals.

He added that neither general presented the deals accurately to the board.

Romney fired both McDonald and Niefert last Oct. 8, but on advice of Atty. Gen. Frank Kelley reinstated them last Nov. 6. They then were suspended without pay by Maj. Gen. Cecil Simmons, National Guard commander.

McAllister previously indicated he would appeal Romney's decision if it were unfavorable. Niefert's attorney, Russell Noble, on the other hand, said he would consider Romney's ruling final.

The hearing was marked by several sharp clashes between Romney and McAllister.

State Cuts Crawford Valuation

The State Board of Equalization Monday, cut Crawford County's equalized valuation by \$3.7 million but otherwise upheld the state wide valuation increase of \$33 million recommended by the State Tax Commission.

The boost is the highest increase ever, except for a \$2.4 billion boost in 1960, according to Robert Purnell, tax commission chairman.

Crawford County's board had recommended a valuation of \$14,882,952. The State Tax Commission recommended \$22,234,431 on the basis of appraisals by the H. L. Yoh Co.

Carl Freund, of the County's Equalization Committee, protested that the Yoh firm still was correcting its figures.

The board agreed to a compromise valuation of \$18,528,692—midway between County and State recommendations.

"This is a figure we can live with," said B. J. Fowler, County Board Chairman.

Mr. Freund and Mr. Fowler met with the State Equalization Board on Monday of this week.

WANTED: FIFTY LOCAL VETERANS

NEW YORK — Some 50 ex-servicemen living in Crawford County have become the object of a search that is being conducted by the Veterans Administration.

They are the veterans of World War I and the Korean Conflict who have service-connected disabilities that have been adjudged to slight to merit monthly compensation payments.

Because they are not on the

books to receive such payments, the VA has not maintained contact with them and, as a result, doesn't have their current addresses.

However, it wants to reach them now because they stand to benefit from legislation, recently passed by Congress, that will make them eligible for low-cost life insurance, beginning May 1st.

National Service Life Insurance policies, in amounts up to \$10,000, are to be made available to them.

The 50 ex-G.I's in Crawford County with these low-rated disabilities comprise approximately 1 out of 11 of the 565 veterans of the two wars living in the local area.

Throughout the country, there are more than 1,500,000 veterans, similarly classified, who will benefit under the new legislation. The job is to find them, says the VA. It is enlisting the aid of service organizations and others in the search.

As to the cost of this insurance, it depends on the age of the applicant and on the type of policy he selects. He has a choice of four types.

If he is 30 years old, for example, the monthly premiums per \$1,000 worth of coverage are 69 cents for Modified Life, 95 cents for Ordinary Life, \$1.45 for 20-Payment Life and \$2.99 for 20-Year Endowment.

If he is 45 years of age, he will be charged \$1.32 for Modified Life, \$1.89 for Ordinary Life, \$2.44 for 20-Payment Life and \$3.36 for 20-Year Endowment.

The rates are typical for those who meet the VA's "good health" standards. They will be somewhat higher for others.

For Crawford County veterans who are under age 50, medical examination will be required unless their health is such that they would not be able to obtain life insurance on the open market.

The offer will be open for one year, beginning May 1st.

IN MEMORIAM

In memory of our beloved mother who passed away May 28, 1963. Two years ago God beckoned and Mom gave Him her hand. He led her up the path of light into His wondrous land. Our hearts still ache with loneliness, our eyes still fill with tears when we recall the lovely face of one we loved so dear. The loving eyes, the gentle smile will ever bring to mind Sweet memories of God's greatest gift, a mother dear and kind. And though our hearts will always grieve we give humble thanks to God for we know she rests in peace beneath the warm green sod.

Forest Service Planting Red Pine In County

After an exceptionally prolonged winter, Huron National Forest planting crews are hard at work at last says J. K. Adams, Mio District Ranger. Reforestation projects this spring on the Mio District are centered in southwestern Oscoda and southeastern Crawford counties where about 1,000 acres of cutover or otherwise poorly stocked land will be planted with red pine seedlings. Forest Service crews now are concerned with getting the 700,000 young trees in the ground before the hot and dry summer weather arrives.

Multiple use planning in the planting area is a foremost consideration of the Forest Service. Access roads and hunters' camping areas are left open. Unplanted strips are left aside on either side of trail roads to provide wildlife with open areas. Natural openings are left that way. Timber producing oak stands are reserved and will assure Michigan's deer and squirrel of plenty of mast. Other zones, considered likely sites for future camping and picnicking grounds, are excluded from machine planting. Hand planting crews may set out some trees if needed to assure shade and a pleasing appearance for recreationists.

AND FINALLY, the acres of new plantations will provide pulp, poles and saw-timber for Michigan's expanding population. This spring's planting is being done by three tractor-machine units. Two of them are owned by local tractor owners who bid for the job and have been contracted by the Forest Service.

Flies and mosquitoes spoiling outdoor fun?

Never again! Now Scott's scientists make it easy for you to keep these annoying pests from plaguing you and your guests. You do this with new Boon, a potent powder easily applied with a turn of the crank of Scott's new Zephyr. Once or twice a week you dust Boon into shrubs, flowers, foundation plantings, other areas where insects land and feed. The Scott's Zephyr atomizes Boon in a dry fog, depositing a nearly invisible film. When insects land in the vegetation and come in contact with Boon they meet their doom. With Boon you easily make your own yard an island of freedom. There is no odor, no mess and no worry. Use as often as desired without endangering people, plants or pets. Chiggers a problem? They won't be if you drift a light cloud of Boon across the lawn. It takes less than 10 minutes to treat the typical yard area with Boon and the Scott's Zephyr. One or two Boon treatments a week will keep insects under control — and assure you of the pleasantest summer you ever spent outdoors.

The Apostles' Calling . . .

A seventeenth-century Puritan, anxious to justify his insatiable love of fishing, observed that it was the calling of the Holy Apostles, and therefore it could not be sinful. No longer are we so fearful of wasting God's precious time that we must justify an impulse to go fishing, and we commend this sport to all harassed and troubled souls. A few hours of fishing on a quiet stream is a prescription to restore one's sanity and heal frayed nerves.

St. Peter himself will turn his head and refuse to notice truancy on a day in May, when the bumble bees are humming in the wistaria and the air is soft and carressing. Not even a cloistered monk could resist the call of the outdoors. This is the time to get out a fishing rod, a tapered line, a few dry flies, and head for the best trout stream in reach. Even if no fish rises to the fly, the trip will not be in vain. Dog-wood beckons from every ridge and the darkest hills now blush with redbud. Along the riverbank wild violets are in full flower and the tender green of oak, maple and poplar casts a mottled light through the woods.

This is a time to breathe deep, filling one's lungs with the fragrance that Nature freely provides, a time to feel the spongy earth beneath one's feet and forget the asphalt and cement of the city. If luck is good, a hungry trout will rush from the depth of a pool, and the rest will be left for the telling on the morrow. Fishing is good for the soul and the body. Not all fishermen are the Lord's apostles, and perhaps some rogue may like to fish, but we have never known a rascal who was also a fisherman. A seventeenth-century writer, Gervase Markham, in *The Pleasure of Princes*, or *Good Men's Recreations* (1614), commended fishing in words that bear repeating. "That pleasure which is most comely, most honest, and giveth man the most liberty to divine meditations . . . is the art of angling, which hath been the sport or recreation of God's saints, of most holy fathers, and of many worthy and reverend divines both dead and this time breathing." Tomorrow we are going to cast our lot with these holy men and go fishing.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE
FILES OF THE AVALANCHE OF 23 YEARS AGO

May 28, 1942

Announcement is out that the Army is soon to make use of the Hanson State Military reservation for the training of artillery units and tank-destroyer units. After months of negotiations, Lieut. Col. George T. Shank, Fort Custer commander, and Michigan military officers at Lansing reached an agreement for use of the Grayling reservation which has stood idle since 1939. Fort Custer artillery officers have wanted to use the Grayling range since the 5th Division first arrived here in January, 1940, but clauses in the deed to the Grayling property prevented its use by anyone but the Michigan National Guard. That necessitated a three-day trip to Camp McCoy, Wis., for Custer troops whose training required an artillery range. Special ski troops also were forced to go to McCoy for their winter training.

A special meeting of the county board of Supervisors was held Monday. All members were present. This was for the purpose of appointing someone to fill the vacancy on the Road Commission. The board appointed Frank Sales, Supervisor of Grayling, to fill the vacancy on the board made by the resignation of Carl Sorenson who has taken a position in Houston, Texas. Considerable agitation concerning the labor troubles between the Road Commission and certain discharged workers came up for discussion. It was generally agreed by the Board that this was an affair for the Road Commission to handle and not for the Supervisors.

C., has received the assignment of second lieutenant in the Army Air Forces in the Mobile Air Depot, Alabama. He will graduate from the college on June 13th, and it is expected he will be leaving soon afterward to report for active duty.

Editor H. A. Babcock of the Alma Record was a caller at the Avalanche one day last week. Mr. Babcock had only recently returned from a trip in the east where his famous Michigan Lumberjack orchestra had played a number of

engagements. Today the group he organized has received national honors and his collection of music and dances is probably the most complete of its kind in the United States. Mr. Babcock made the collection of rollicking tunes and dances of the lumber camps and rivers his hobby more than ten years ago. "I began to notice that music and songs were disappearing so I conceived the idea of taking steps to preserve them since they really constituted the pioneer music of the woods." It was nine years ago that he picked 12 musicians and dancers from about 65 applicants to organize the Michigan Lumberjacks. His own keen ear and firsthand knowledge of the woods stood him in good stead in making the selection. Every one of them had played in the woods camps. Their average age is 65. Perry Allen of Shepherd is the oldest and still does his clog steps at 77 years. Others include Benno Hoffmeyer, Sam Hackett, Harry Blackman, Kenneth Ellsworth, Frank Hufford, Carl Lathrop, Leon May, Arthur Mulford, Arthur Ballinger, Clarence McLean, Robert Losey and Bill McBride. The Lumberjack organization is non-commercial and more and more as the years roll along will folks appreciate the work he has done so well in preserving the music which developed in a care-free day when virgin timber clogged the rivers.

ASSETS OF CRAWFORD COUNTY FAMILIES RISING

(Special to the Avalanche)

NEW YORK — The net worth of Crawford County residents has been rising in recent years.

As of the past year, the personal wealth (net assets) of the local population amounted to no less than \$18,125,000, it is estimated, based on the latest economic studies.

Included in this total are all of their worldly possessions — money, personal property, real property and other valuables — everything, in fact, over and above their debts.

While the figure, admittedly, is

not a precise one, it is derived from national surveys made by the Federal Reserve Board and others.

It takes into account the overall income in the local area and the extent to which the income is distributed among the population.

IN CRAWFORD County, where average earnings have been going higher and higher with the years, the net worth of local families has been rising proportionately.

What it amounts to now, determined by dividing the \$18,125,000 total assets of the community by the number of families, is an average of \$12,500 per family.

Since "average" lumps together rich and poor as well as old and young, no family is just average.

The board picture of personal wealth shows that, for any particular family, it is closely related to its earnings.

It also varies with age. A young family, just starting out, has a

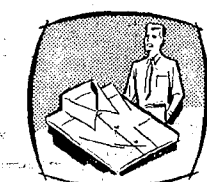

modest income and little in the form of assets. Its funds are used for equipping a home.

The Federal Reserve Board finds that, in general, families with annual incomes of \$5,000 to \$7,500 have a net worth of \$15,112, those with \$7,500 to \$10,000 income, a net worth of \$21,243, and those in the \$10,000 to \$15,000 bracket, \$30,389.

THE NET worth figures combine all assets, such as the equity in a house, the value of life insurance, cash on hand and in the bank, stocks, and bonds, automobile, the amount in pension funds, household appliances, furniture, jewelry and all other items of value.

From this total is deducted all outstanding debt, including mortgage obligations.

traps

tiny particles in gasoline

(before they get into your fuel line!)

Most gasolines are clean when they leave the refinery. But on the way to your car—in transit and in storage—they pick up impurities that could choke off power, reduce engine efficiency... could even stop you cold. Automotive engineers asked for an answer to this problem—American Oil Research developed the American FINAL/FILTER. It traps those tiny particles right at the pump nozzle. If you depend on your car for your livelihood (and even if you don't) it pays to "fill 'er up filtered" with American. Regular or American. Super-Premium.

About 50 Maple Forest residents met at the town hall for a May Day celebration of Michigan Week. Mr. Dave Olson, Co. Mr. Jon Roethel, naturalist with the Parks Dept., showed marvelous slides of the familiar birds of Michigan which we all enjoyed very much. Our thanks to them both. Viking Linksters Split In Last Week's Play
The Grayling high school golf team capped a week of record breaking by defeating Gaylord 13-2 on the local course last Friday. On Wednesday the Vikings lost to Traverse City 9-4 to 5 1/2 as the squad from the Class "A" school only outshot the local team by 16 strokes.

Kyle Slusser led the Vikings attack against Traverse City with a record tying 83 to pick up three of the green and white's points. Dale Slusser and Steve DuBois picked up one point and George Stencil added the 1/2. When John Cook's 88 was added to the other 18 hole totals, the five boys had a new school team total record of 445.

THIS NEW record stood until the Gaylord meet on Friday when the same five boys lowered it to 438. A big assist in lowering the record came from Cook who lowered the 18 hole record to 79. The old record of 83 was set by Walt Fallon in 1962 and tied by Cook in 1963. Kyle Slusser in 1964 and last Tuesday. Cook and Kyle Slusser also tied the 9 hole record of 39 that they both held from the 1963 and 1964 season. With the fall of Fallon's record all golf team records are held by this year's team and were either set or tied this year.

IN THE Gaylord meet, Cook and Dale Slusser picked up 3 points each. Kyle Slusser and Stencil each added 2 1/2 points and DuBois added 2.

In action this week the varsity was to go to Gaylord on Tuesday and will host Petoskey on Thursday. A second unit will be playing Gladwin on Thursday while a third group will play Alpena JV and Traverse City JV here on Friday. The season will end the following week.

CUB SCOUTS PLAN SUMMER PROGRAM

A Cub Scout Pack meeting was held Thursday, May 20 at 7:30 at the elementary school, with only eight people present. A better turnout at these meetings is needed to make a success of Cub Scouting.

The summer program has many things planned to keep the boys interested. June 27th a Field Day is planned at 1:30 with dens fixing a meal under supervision, many games and entertainment.

JULY 25th at 2 p. m. swimming with contests, games and prizes. Each den will cook its own food.

August 15th at 1 p. m. a hiking trip under supervision to teach boys map and compass reading. Each boy will carry his own food.

September 26th at 3 p. m. there will be a Pine Wood Derby race. The boys will make their own cars. They can find out more information on rules etc., from den mothers. Registration for this should be made by September 15th.

OCTOBER 17th at 3 p. m. there will be an Archery Contest, each boy will make his own bow.

This week the Cub Scouts take part in the Memorial Day parade. They are to meet in uniform at the American Legion Hall at 9:30 a. m. Den mothers plan to be there to march with them.

The next Pack meeting date is changed from Thursday, May 27th to Thursday, June 3rd. Skits will be put on by Dens 4, 6 and 8.

Games and entertainment have been planned. A "Cubby Award" will be presented to the Den having the most points present. Every boy must be accompanied by one or more parents at all future pack meetings unless they have a written excuse.

ANY CUB SCOUT interested in a one week summer camp stay may contact Norm Sorenson. Camp opens June 3rd and closes July 31. It is located 9 miles from Rose City towards Mio at the Paul Bunyan Scout Reservation. This will be a wonderful opportunity for the boys to earn some of their badges and merits. Parents may visit any time boys are there, especially Friday night around the campfire. Boys can learn to swim, shoot a bow and arrow, a rifle, go canoeing hiking, fishing and many other exciting things boys like in the outdoor life. There is a \$4.00 registration fee, leaving a \$14.00 balance.

Michigan Week

(Continued from Page One)

Cavalcade continued with visits to the Bear Archery Company and the Grayling Community Recreation Area and Winter Sports Park. From there, the Governor and his party were conducted back to the air base where they took off for Lansing.

In other Michigan Week activities also on Friday afternoon, the annual Michigan Week Quiz Down was held at the Grayling High School. Winner this year was the seventh grade who over all the remaining grades in both the junior high and high schools.

Saturday, Grayling gave Michigan Week 1965 a real fine windup with the parade of the Little League and the dedication of their new field, Millikin Field.

Little League

(Continued from Page One)

Little League flag were raised on the pole by representatives from the four teams present. Mr. Thayer then introduced members of the Board of Directors, following this with a history of the building of the field, pointing out the support given in time and materials by Jack Millikin and that because of this the name Millikin Field was chosen. Mr. Millikin expressed his thanks for the honor and threw out the first ball to start the 1965 Little League season. The field was officially christened the Millikin Little League Field, and the game between the Legion and the Moose got under way.

The American Legion won over the Moose 18 to 3.

THERE WILL BE a Baseball Clinic for Little League players, coaches, umpires and everyone connected with Little League, on Tuesday, June 8 at 1 p. m. Danny Litwiler, baseball coach of Michigan State University and his assistant will be here to conduct the clinic at Millikin Field. If the weather is unfavorable the clinic will be held the following morning at 9 a. m. at Millikin Field.

IT SEEMS vandals were at work last week when they wrecked the newly constructed dugouts that were erected at the Minor League field. A lot of time and work wasted. The person or persons responsible should feel real proud of themselves.

Why can this 40-gallon heater give more hot water

than this 80-gallon one?

Because it's a Gas water heater, that's why. The 80-gallon heater is electric. And Gas heats so much faster than electricity you can actually get more hot water daily from a Gas heater than an electric one twice its size! And Gas costs so much less, too—one more big reason why Gas water heaters are the overwhelming favorites of families in our area.

Plan on saving with Gas now. See the newest Gas water heaters now on display at your dealer's, your plumber's or at Gas Company showrooms.

JUNIOR PROM IS GREAT SUCCESS

The Junior Prom, "Gone with the Wind", held on Saturday, May 15, was by far a great success. There was a turn-out of approx-imately 250 people including many parents.

The decorations consisted of rose garlands strung over lattices which adorned the walls of the Grayling High School gym. In the center of the gym was a gazebo made of white picket fence sections and covered with more rose garlands.

The music was furnished by the "Rogues" of Gaylord. The enter-tainment they provided was well-liked by all who attended.

We would also like to take this opportunity to thank Rhea Stripe for the magnificent job she did as Decorating Chairman. Also our thanks go to Sandy Millikin, Cathy Bourrie, Mary Bohemeyer, Penn Welch, Dave La Gure and Rick Rutkowski for their much appre-ciated help.

IT ISN'T LOCKED

Do you ever feel trapped? Do the walls of a meaningless life seem to close in on you some-times? Here's good news! Every life has a gate, and it is never locked. But it only opens from one side... your side.

Seek for the gate with all your heart, and you will find it. Open it, and you will enter a world full of meaning and beauty. You'll step from darkness to light... and never look back.

The key? It's waiting for you in Christ's teachings. His Church will help you to find it, and in His service you will discover life's real purpose. Go to church this Sunday, and hear God's words of promise and comfort. They are meant for all who yearn to widen the cramped horizon of their lives. They are meant for you.

THE CHURCH FOR ALL
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of charac-ter and good citizenship. It is a store-house of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regu-larly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regu-larly and read your Bible daily.

Woman's Club

The Grayling Woman's Club motored to Shanty Creek Lodge, Bellaire, for their final meeting of the year Monday evening, May 17th. Mrs. Pete Martin, the manager's wife, took the ladies on a tour of the main lodge. Colored movies of the group were taken at the entrance and front scenic balcony.

Mrs. John Ludeman was chairman of the affair. The long dining table had a daisy centerpiece. Place cards and individual corsages carried out the floral theme.

Mrs. Glen Fenton, retiring President, was honored guest.

The group adjourned to the Purple Lounge after dinner for a short business meeting. New members voted on were Mrs. James Forbes, Mrs. Lyle Johnson, Mrs. Jack Wainwright, Miss Margaret Douglas and Mrs. Marion Hyne. Honorary guests were Mrs. T. P. Peterson, Mrs. Lorne Douglas and Mrs. Esbern Olson.

Mrs. Ludeman read a paper in which all the members present were personified in clever prose. Mrs. Fenton turned the president's gavel over to the new president, Mrs. Dale Hatt.

June, July and August will be business meetings on the 3rd Monday.

Feldhauser Students Visit Ranch

Twenty-six pupils from the Feldhauser School, their teacher Mrs. Arthur Wakeley, Mr. Wakeley, Mrs. Art Bloomer, and Mrs. Bud Stephan as drivers made a field trip to the South Branch Ranch on April 28th.

The owners, Betty and Steve Sias, and trainer Marty Tharnish and wife Kay, were very cordial to the group, showing them the buildings, the stock, including the Texas longhorn and Baa-Baa the household pet lamb, and demonstrated how the cutting horses worked with the cattle. What made the biggest hit with the children was each getting a horseback ride with Mr. Tharnish leading the horse. It was a day to remember for the whole school.

G.H.S. Sociology Class Visits State Hospital

By Patsy McEvers

On May 13, 1965, the Sociology Class of Grayling High School made a trip to the State Hospital located in Traverse City, Michigan. The fifty-four students left Grayling at 9:00 and everyone was given instructions to meet in the parking lot at Traverse City at 12:30. This gave the students an opportunity to have their lunch before going to the hospital. Accompanying the students as drivers of the cars and also as chaperones were: Mrs. Harry Egan, Mrs. Robert Lovell, Mrs. James Eaton, Mrs. Peg Brooker, Mrs. Bud Gould, Mr. Arnie Mauren, Rev. John Smith, Mrs. Don Smock, Mrs. Glenn Sawyer, Mrs. Lewis Stillwagon, Mrs. Junior Palmer and coach Bruce Smith, who is also the Sociology teacher.

The group met in an assembly at 1:00 p.m. where they were divided into three tour groups. It was decided that each group would meet as an assembly at 2:30 at which time everyone would be able to ask any questions they might have.

Each group went to a different area of the hospital so that they could bring back to the whole class on Friday what they had seen. Aside from touring the wards, the students went through the recreation centers, the occupational therapy buildings, the laboratory for testing, the drug room where prescriptions are filled, a tour of laundry and of course, we saw the grounds surrounding the hospital.

At the 2:30 general assembly of the group, we were told that it would take about eighteen hours to cover the entire grounds of the state hospital and this is only with continuous walking.

One of the main reasons for our visit to this hospital was to try and show us that we should not look down upon an emotionally disturbed person, but rather we must try to understand them. It is believed that if young people see state hospitals, their fears of the illness will be lessened. One important fact which was learned at the assembly was that when a person returns home, the people of the town can more or less decide if that person shall stay, simply by their actions toward the person who has returned.

Garrett Bufe, Grayling High art instructor and his class are to be highly congratulated for the fine art work used for the occasion which graced the gym stage. The day set aside during 1965 Michigan Week for this expression of esteem to Grayling's largest employer was sponsored by the Crawford County Chamber of Commerce.

The Chamber extends its deep appreciation to the more than 75 people who helped in the kitchen and at the school, and to the over 200 who donated food, services and cash in the Fred Bear Appreciation Day.

Possible Federally Supported Programs, For Intermediate Districts

The Michigan Legislature is at present working on legislation to enable the State of Michigan to receive federal support from the Elementary and Secondary Education Act of 1965, and on legislation which would propose a plan for distribution of such support. Intermediate School Districts are being considered in the plan for distribution.

Some of the areas which might be developed by intermediate districts from federally-supported programs are:

Inservice training for teachers; Supervisory personnel and specialists for improvement of instruction and to provide related pupil services; Institutes for training teachers in special skills; Curriculum materials centers; Special classes for physically handicapped, disturbed, and socially maladjusted children; Remedial programs; Instructional media centers to provide modern equipment and materials; Special audio-visual materials for disadvantaged children; Programs for early identification and pre-

vention of dropouts; Increased guidance services; Vocational education - area vocational centers; Supplemental health services; And many others.

IN ADDITION to programs currently available under the National Defense Education Act (and Titles 1, 2, 3, 4 and 5 would provide aid for such an intermediate district) the new 1965 Act would provide approximately \$238,000 to the new consolidated intermediate district. Such a consolidation would bring additional state funds for similar support of these programs.

An election to decide on consolidation of the Ogemaw, Crawford, Roscommon and Oscoda school districts is to be held June 14th.
